TINY DIMENSIONS, TREMENDOUS POWER!

H-155 SPEAKER MICROPHONE

IS YOUR GEAR WEIGHING YOU DOWN?

COMPACT YET POWERFUL H-155 DELIVERS CLEAR, STRONG AUDIO.

Using larger Speaker Microphone can feel cumbersome when attached to uniforms or backpacks, making movement inconvenient during tasks. For instance, wearing heavy equipment can hinder quick mobility or make it challenging to navigate tight spaces.

◆ LIGHTWEIGHT DESIGN, EFFORTLESS AUDIO EXPERIENCE

The H-155 measures only 41 x 56 mm, with a thickness of just 30 mm, making it smaller than half a hand. This compact size breaks free from the bulk of traditional speakers. Its lightweight design allows users to wear it comfortably for extended periods or while on the move, without discomfort or feeling weighed down.

◆ OUTSTANDING SOUND QUALITY, CLEAR TRANSMISSION OF EVERY MESSAGE

The H-155 speaker delivers high-fidelity sound that accurately reproduces speech, ensuring that every user can clearly hear critical instructions or important information. Whether in emergency rescue situations or daily work tasks, it ensures safety and efficiency.

◆ PERFECT FIT, BOOSTING EFFICIENCY ANYWHERE, ANYTIME

The H-155 is designed with user comfort and convenience in mind. Whether worn on a uniform or attached to a backpack, it can be easily secured, avoiding the inconvenience of bulky equipment. Its compact and convenient design makes it an ideal choice for various industries. Whether for rescue operations, medical staff, shopping malls, or outdoor activities, the H-155 provides stable and clear audio support, ensuring smoother work or activities and enhancing overall work efficiency and safety.

CLEAR, PRECISE SOUND FOR DIVERSE APPLICATIONS

The H-155 speaker combines high volume and HI-FI sound quality, making it ideal for challenging environments. The high volume ensures clear communication in noisy settings, while the hi-fi sound guarantees accurate sound reproduction, enhancing the listening experience. Whether in rescue operations, retail, outdoor activities, or medical and warehouse settings, the H-155 delivers precise audio, helping improve efficiency and safety.

H-155 A HIGH-PERFORMANCE SPEAKER BUILT FOR PROFESSIONALS ACROSS DIVERSE INDUSTRIES LIGHTWEIGHT, RELIABLE, VERSATILE

The H-155 speaker, with its compact and lightweight design, is ideal for various industries. Whether for communication and entertainment during outdoor activities, reliable coordination in rescue operations, delivering medical instructions, maintaining clear communication in noisy retail environments, or improving efficiency and safety in warehouses and schools, the H-155 ensures stable performance. It is a high-performance product tailored for users across multiple industries.

IP68 RATING

It can be submerged in water up to a depth of 1.5 meters for 30 minutes.

POWERFUL VOLUME
