DURABLE AND CLEAR ***Anywhere, Anytime***

The HS06S is an earpiece designed for long-term use and high-intensity environments, featuring a screw-on detachable acoustic tube, excellent sound quality, durability, and easy cleaning. Whether on construction sites, security patrols, or emergency response, the HS06S ensures stable and clear communication.

Perfect **Fit** Lasting Comfort

The HS06S earpiece features an ergonomic design, lightweight construction, and multiple ear tip options to ensure comfort during extended wear. Whether in high-pressure environments or long shifts, the HS06S stays securely in place without causing discomfort, allowing users to focus on their tasks.

DETACHABLE

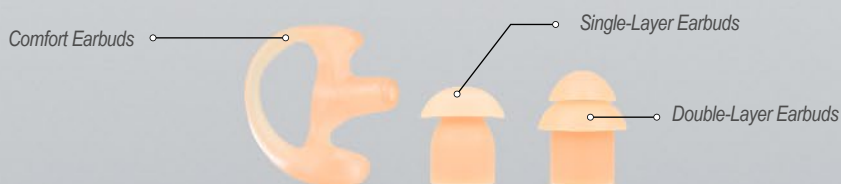

HS06S

*Exceptional Sound
Comfort in Every Wear*

Whether on construction sites, security patrols, or emergency response, the HS06S provides an efficient communication solution. With its durable design, exceptional sound quality, and comfortable wear, you can maintain clear connections and optimal performance in any demanding environment.

Choose HS06S for seamless communication.

◆ Earbud Accessories

- **Comfort Earbuds**
Soft and lightweight design for long-lasting comfort.
- **Single-Layer Earbuds**
Simple design with a secure fit, providing stable sound and basic noise isolation.
- **Double-Layer Earbuds**
Dual-layer structure for enhanced noise isolation, ideal for noisy environments.

◆ Speaker Specifications

- Decibels (dB): $75\text{dB} \pm 3\text{ dB}$
- Impedance: $16 \pm 3\text{ ohm}$
- Speaker Size: $\Phi 6 * 3.6\text{ mm}$

◆ Microphone Specifications

- Microphone Sensitivity: $-40 \pm 3\text{ dB}$
- Impedance: 2.2K ohm
